

Kemtile specialise in supplying highly technical, hygienic flooring systems to the food & drink, industry. Kemtile have been a licensed contractor for UCRETE for longer than any other company in the UK and consistently install more UCRETE than the majority of the other applicators.

Kemtile can also prepare your sub-floor, design and install the drainage and supply the wall finishes. In fact Kemtile can work as principal contractor so you only deal with one company reducing both your costs and your stress.

When your facility needs the highest standards of quality and hygiene choose Kemtile.
